

June 4, 1976 Darśana with Baba Hari Dass at the Calabasas Retreat

Edit notes: The following were transcribed from notes taken at the time of the event. Babaji's written comments are indicated by B. There was editing for format and IAST transliteration of Sanskrit terms.

- B: Ego in its sāttvika state becomes the Self.
- B: Karma śakti creates the ego of being a doer. It makes the guṇas flow down separately, and in mixed state. Guṇa are undifferentiated in mūla, in sāttvika form.
- B: On karma śakti level, the experiencer is an illusion. The original experiencer is not an illusion.
- B: Once ājñā is pierced, there is no sādhana for piercing śrī, you are on your own. Can go to left or right for powers, rather than following sāttvika path.
